

Aquapoint 60B

A cost effective and sleekly designed water cooler. With its cylindrical design, the Aquapoint 60B stands out from the crowd. Easy to keep clean and maintain, and with a smaller footprint than most coolers, this water cooler is the ideal addition to most spaces without compromising on quality.

- Taps - push paddle
- Dispensing Height - 19cm
- Hygienic - glossy surfaces make this cooler easy to keep clean
- Capacity - 20 litres of chilled water per hour
- Models - available in Mains Connected or Bottled options
- Power supply - 220-240 Volt, 50Hz

Additional Accessories

- Installation Rails and Filters
- Replacement Taps
