

# 1000C

Powerful and compact, the 1000C is ideal for those with reduced counter-top space but need a high capacity. With a capacity of 186 cups of boiling water per hour, this machine can keep up with increased demand. The stainless-steel body is easy to clean and maintain. Being well-insulated, this machine keeps heat in and energy costs low.

- Taps - Conventional lever style
- Dispensing Height - 16.5cm
- Capacity - 31 litres of hot water per hour and 5 litres per hour instant draw off
- Self diagnostic system

## Additional Accessories

- Installation Rails and Filters
- Replacement Taps
- No Touch Adapter
